Ref: 3318_126705 **Date:** 24 - 28 Feb 2025 **Location:** Brussels (Belgium) **Fees:** 4400 Euro

Introduction

Planning, Forecasting & Budgeting are 3 of the most important functions in business. Performed properly they can lead to exceptional success. Yet many people do not use the tools available to them to their best advantage. In this course, we will leverage the power of Excel to demonstrate how to improve your forecasting, planning, and budgeting. By developing better spreadsheets & models, planning is more accurate, forecasting is more precise & budgeting is more attainable. And the time to develop these is dramatically reduced.

Forecasts, plans, and budgets may be improved through extensive what-if analysis to find key factors for management to monitor. Furthermore, these tools can be easily transferred into business plans which provide the guide to the overall performance of the firm.
