A close-up photograph of chess pieces on a checkered board. In the foreground, a large, ornate gold king piece stands prominently. To its left, a smaller silver pawn is visible. Further back, another silver pawn is positioned. The background features concentric circles, creating a sense of depth and focus on the king piece.

Advanced Strategies for Effective Facility Management

Ref: 3174_129253 **Date:** 24 - 28 Aug 2025 **Location:** Sharm El-Sheikh (Egypt) **Fees:** 3700 Euro

Course Description

This advanced course is designed for experienced facility managers seeking to enhance their strategic capabilities and operational effectiveness. Over five days, participants will explore cutting-edge strategies in facility management, focusing on sustainability, technology integration, and performance optimization. The course combines theoretical knowledge with practical applications to address complex challenges in modern facility management.

Learning Objectives

- Develop and implement comprehensive facility management strategies aligned with organizational goals
- Master advanced techniques for improving operational efficiency and resource utilization
- Integrate innovative technologies and sustainability practices into facility management operations
- Enhance leadership skills and decision-making processes in complex facility management scenarios
- Implement effective risk management and contingency planning strategies

Course Modules

Day 1: Strategic Facility Management Planning

- Aligning facility management with organizational objectives
- Advanced strategic planning methodologies
- Stakeholder management and communication strategies
- Performance metrics and KPI development

Day 2: Sustainability and Energy Management

- Implementing sustainable facility management practices
- Advanced energy management techniques
- Green building certifications and compliance
- Circular economy principles in facility management

Day 3: Technology Integration and Smart Buildings

- IoT and AI applications in facility management
- Building Information Modeling BIM for facility managers

A graphic of a chessboard with several chess pieces (king, queen, rook, knight, and pawns) in gold and silver. The text 'UK Training PARTNER' is overlaid on the board.

UK Training
PARTNER

- Cybersecurity considerations for smart buildings
- Data analytics for informed decision-making

Day 4: Risk Management and Business Continuity

- Advanced risk assessment techniques
- Developing comprehensive business continuity plans
- Crisis management and emergency response strategies
- Compliance and regulatory considerations

Day 5: Performance Optimization and Innovation

- Lean facility management principles
- Continuous improvement methodologies
- Change management in facility operations
- Emerging trends and future of facility management

Practical Wins for Participants

- Develop a strategic facility management plan tailored to their organization
- Create a sustainability roadmap with measurable energy efficiency goals
- Design a technology integration strategy for smart building implementation
- Formulate a comprehensive risk management and business continuity plan
