A close-up photograph of chess pieces on a checkered board. In the foreground, a large, ornate gold king piece stands prominently. To its left, a smaller silver pawn is visible. Further back, another silver pawn is positioned. The background features concentric circles, creating a sense of depth and focus on the king piece.

Strategic Financial Management: MBA Accounting Essentials

Ref: 3279_130320 **Date:** 20 - 31 Oct 2025 **Location:** Madrid (Spain) **Fees:** 7400 **Euro**

Course Description

This intensive 10-day course provides a comprehensive overview of strategic financial management and decision-making for MBA-level accounting professionals. Participants will develop advanced skills in financial analysis, corporate strategy, risk management, and value creation. The course combines theoretical frameworks with practical applications to prepare leaders for complex financial challenges in today's business environment.

Learning Objectives

- Analyze and interpret financial statements to inform strategic decision-making
- Develop and implement effective capital budgeting and investment strategies
- Evaluate and manage financial risks in a global business context
- Optimize capital structure and dividend policies to maximize shareholder value
- Apply advanced valuation techniques for mergers, acquisitions, and corporate restructuring
- Integrate financial management principles with overall corporate strategy

Course Modules

Day 1: Foundations of Strategic Financial Management

- Introduction to strategic financial management
- Financial statement analysis and interpretation
- Key performance indicators and financial ratios
- Linking financial management to corporate strategy

Day 2: Advanced Financial Planning and Forecasting

- Financial modeling and scenario analysis
- Pro forma financial statements
- Cash flow forecasting techniques
- Sensitivity analysis and risk assessment

Day 3: Capital Budgeting and Investment Decisions

- Advanced capital budgeting techniques
- Real options analysis
- Project valuation under uncertainty
- Portfolio management and asset allocation
