A large, detailed image of chess pieces on a checkered board. In the foreground, a gold king piece stands prominently on a white square. To its left, a silver pawn piece is on a white square. Further back, another silver pawn piece is on a white square. The background features concentric circles and a checkered pattern, suggesting a strategic or competitive theme.

Advanced Strategies in Total Quality Management (TQM)

Ref: 3035_136916 **Date:** 22 - 26 Sep 2025 **Location:** Accra (Ghana) **Fees:** 3300 **Euro**

Course Description

This comprehensive 5-day course delves into advanced Total Quality Management (TQM) strategies, equipping participants with cutting-edge tools and methodologies. Designed for quality professionals and managers, the program focuses on implementing TQM principles to drive organizational excellence, foster innovation, and achieve sustainable continuous improvement.

Learning Objectives

- Master advanced TQM concepts and their practical application in modern organizations
- Develop strategies for integrating TQM principles into organizational culture and processes
- Learn to implement data-driven decision-making and advanced quality measurement techniques
- Acquire skills to lead and manage successful TQM initiatives across diverse industries
- Understand the role of emerging technologies in enhancing TQM practices

Course Modules

Day 1: Advanced TQM Principles and Strategic Implementation

- Evolution of TQM and its role in modern business environments
- Advanced TQM frameworks and their strategic application
- Integrating TQM with organizational strategy and culture
- Case studies of successful TQM implementations

Day 2: Data-Driven Quality Management and Decision Making

- Advanced statistical process control techniques
- Big data analytics for quality improvement
- Predictive modeling in quality management
- Implementing data-driven decision-making processes

Day 3: Innovation and Continuous Improvement in TQM

- Fostering a culture of innovation within TQM frameworks
- Advanced problem-solving methodologies
- Design thinking and its application in quality management
- Kaizen and other continuous improvement techniques

Day 4: Leadership and Change Management in TQM

- Leading TQM initiatives in complex organizations
- Change management strategies for TQM implementation
- Building and managing high-performance quality teams
- Overcoming resistance to TQM initiatives

Day 5: Emerging Trends and Technologies in TQM

- Industry 4.0 and its impact on quality management
- Artificial Intelligence and Machine Learning in TQM
- Blockchain for quality assurance and traceability
- Sustainable and green quality management practices

Practical Wins for Participants

- Develop a comprehensive TQM implementation strategy tailored to their organization
- Create a roadmap for integrating advanced data analytics into quality processes
- Design an innovation-driven continuous improvement program
- Formulate a change management plan for TQM adoption in their workplace
