Professional Medical Warehouse Management Excellence Course

Ref: 3183_137276 **Date:** 22 - 26 Sep 2025 **Location:** Munich (Germany) **Fees:** 4400 **Euro**

Course Description

This intensive 5-day course provides healthcare professionals with comprehensive training in medical warehouse management. Participants will learn advanced techniques for inventory control, regulatory compliance, and operational efficiency in healthcare logistics. The course combines theoretical knowledge with practical applications to ensure participants can implement best practices in their organizations.

Learning Objectives

- Master inventory management techniques specific to medical supplies and pharmaceuticals
- Understand and apply regulatory requirements for medical warehouse operations
- Develop strategies for optimizing warehouse layout and workflow
- Implement effective quality control and safety measures in medical warehousing
- Learn to use data analytics for improved decision-making in healthcare logistics

Course Modules

Day 1: Foundations of Medical Warehouse Management

- Introduction to healthcare supply chain management
- Unique challenges in medical warehousing
- Regulatory landscape for medical warehouses
- Best practices in medical inventory management

Day 2: Inventory Control and Stock Management

- Advanced inventory tracking systems
- Demand forecasting for medical supplies
- Stock rotation and expiration date management
- Implementing effective cycle counting procedures

Day 3: Warehouse Layout and Operations Optimization

- Designing efficient warehouse layouts for medical supplies
- Temperature-controlled storage solutions
- Optimizing picking and packing processes
- Implementing automation in medical warehousing

A graphic of a chessboard with several chess pieces (king, queen, rook, knight, and pawns) in gold and silver. The text 'UK Training PARTNER' is overlaid on the board.
