Ref: 3245_137429 **Date:** 24 - 28 Feb 2025 **Location:** Maldives (Maldives) **Fees:** 4700 **Euro**

Introduction

'How to be a Leader in Safety and Health' focuses on the importance of top management involvement in guiding the process of implementing new approaches to health and safety. The course addresses the change management process which can be a challenge for some organizations seeking significant improvement in their health and safety performance. When routine and traditional risk reduction approaches do not produce the desired results, a new strategy should be put in place. With many real-life examples and interactive exercises, a step-by-step process is introduced to enable participants to influence health and safety policies and procedures in their organizations. Moreover, participants will be ready to take a leadership role in promoting good health and safety practices and implementing related changes.

Course Objectives of Behaviour-Based Safety

- Enhance your ability to effectively manage a safety and health program
- Develop skills in safety supervision, leadership, and evaluation
- Identify and list safety and health training needs
- Assess and measure a safety and health culture
- Effectively measure a safety culture program after implementation
