CISSP: Mastering Information Systems Security Architecture

Ref: 3327_138285 **Date:** 05 - 16 Oct 2025 **Location:** Tunis (Tunisia) **Fees:** 6200 **Euro**

Course Description

This comprehensive 10-day CISSP training course covers all eight domains of the CISSP Common Body of Knowledge CBK. Participants will gain in-depth knowledge of information systems security principles, practices, and architectures. The course prepares security professionals for the CISSP certification exam through lectures, discussions, and hands-on exercises.

Learning Objectives

- Understand and apply core concepts across all eight CISSP domains
- Develop skills to design, implement, and manage robust information security programs
- Learn to identify, assess, and mitigate information security risks
- Prepare thoroughly for the CISSP certification exam
- Gain practical experience through real-world case studies and exercises

Course Modules

Day 1: Security and Risk Management

- Information security concepts and principles
- Security governance and compliance
- Legal and regulatory issues
- Professional ethics

Day 2: Asset Security

- Information and asset classification
- Ownership and protection of assets
- Privacy protection
- Data security controls

Day 3: Security Architecture and Engineering I

- Security models and architectures
- Security evaluation models
- Security capabilities of information systems
- Vulnerabilities of security architectures

Day 4: Security Architecture and Engineering II

The logo for UK Training Partner features the text 'UK Training' in a small, black sans-serif font above the word 'PARTNER' in a large, bold, black sans-serif font. The background of the logo is a stylized chessboard with several chess pieces (a king, a queen, a rook, and a pawn) in gold and silver, set against a backdrop of concentric circles.

- Cryptography fundamentals
- Site and facility security design
- Physical security
- Cloud and virtualization security

Day 5: Communication and Network Security

- Secure network architecture design
- Secure network components
- Secure communication channels
- Network attacks and countermeasures

Day 6: Identity and Access Management

- Physical and logical access control
- Identification and authentication technologies
- Identity as a Service IDaaS
- Access control attacks and countermeasures

Day 7: Security Assessment and Testing

- Assessment and test strategies
- Security control testing
- Security process data collection
- Security audits

Day 8: Security Operations I

- Investigations and incident management
- Disaster recovery
- Business continuity
- Logging and monitoring

Day 9: Security Operations II

- Resource protection techniques
- Incident response procedures
- Preventative measures
- Patch and vulnerability management

Day 10: Software Development Security

- Security in the Software Development Lifecycle
- Development environment security controls
- Software security effectiveness
- Acquired software security impact

A graphic of a chessboard with several chess pieces (king, queen, rook, knight, and pawns) in gold and silver. The text 'UK Training PARTNER' is overlaid on the board.
