## Advanced Drilling Best Practices: Optimizing Well Performance

**Ref:** 321381\_139309 **Date:** 22 - 26 Sep 2025 **Location:** Paris (France) **Fees:** 4400 **Euro**

### Course Description

This intensive 5-day course covers advanced drilling techniques and best practices to optimize well performance and operational efficiency. Participants will gain in-depth knowledge of modern drilling technologies, problem-solving strategies, and innovative approaches to enhance drilling operations across various environments.

### Learning Objectives

- Master advanced drilling techniques and technologies
- Develop skills in comprehensive well design and planning
- Optimize drilling fluid selection and management
- Enhance problem-solving abilities for complex drilling scenarios
- Implement cost-effective and efficient drilling strategies

### Course Modules

#### Day 1: Advanced Drilling Technologies and Well Planning

- Overview of cutting-edge drilling technologies
- Comprehensive well design and planning strategies
- Risk assessment and mitigation in complex drilling operations
- Integration of real-time data for informed decision-making

#### Day 2: Drill String Mechanics and Optimization

- Advanced drill string design and analysis
- Optimizing weight on bit WOB and rotary speed
- Drill string vibration management
- Bottom Hole Assembly BHA design for directional control

#### Day 3: Drilling Fluid Management and Hydraulics

- Advanced drilling fluid selection and formulation
- Hydraulics optimization for improved hole cleaning
- Managing drilling fluids in challenging environments
- Wellbore stability and fluid interaction

#### Day 4: Directional Drilling and Wellbore Trajectory

A graphic of a chessboard with several chess pieces (king, queen, rook, knight, and pawns) on it. The text 'UK Training PARTNER' is overlaid on the right side of the board.

UK Training  
**PARTNER**

- Advanced directional drilling techniques
- Trajectory optimization for complex well profiles
- Geosteering and real-time trajectory adjustments
- Multi-lateral and extended reach drilling considerations

## **Day 5: Problem Solving and Performance Optimization**

- Advanced stuck pipe prevention and recovery techniques
- Lost circulation management strategies
- Optimizing Rate of Penetration ROP
- Case studies and lessons learned from challenging drilling operations

## **Practical Wins for Participants**

- Ability to design and implement advanced drilling programs
- Enhanced problem-solving skills for complex drilling challenges
- Improved operational efficiency and cost reduction strategies
- Networking opportunities with industry experts and peers
