Logistical Support in Aviation Accidents and Incidents

Ref: 321486_140311 **Date:** 27 - 31 Oct 2025 **Location:** Casablanca (Morocco) **Fees:** 3300 Euro

Course Description

This intensive 5-day course equips participants with the knowledge and skills necessary to provide effective logistical support during aviation accidents and incidents. Covering all aspects from initial emergency response to investigation assistance and recovery operations, the course prepares professionals to handle the complex logistical challenges that arise in these critical situations.

Learning Objectives

- Develop comprehensive emergency response plans for aviation accidents
- Master techniques for coordinating resources and personnel in crisis situations
- Learn to support accident investigations while maintaining site integrity
- Understand the complexities of managing recovery operations and debris removal
- Gain insight into effective communication strategies with various stakeholders

Course Modules

Day 1: Foundations of Aviation Accident Logistics

- Introduction to aviation accident response
- Legal and regulatory framework
- Roles and responsibilities in accident management
- Initial response and resource mobilization

Day 2: Emergency Response Planning and Execution

- Developing comprehensive emergency response plans
- Resource allocation and management
- Coordination with emergency services
- Communication protocols and stakeholder management

Day 3: Supporting Accident Investigations

- Understanding the investigation process
- Preserving evidence and maintaining site integrity
- Logistical support for investigative teams
- Documentation and record-keeping

Day 4: Recovery Operations and Debris Management

A graphic of a chessboard with several chess pieces (king, queen, rook, knight, and pawns) in gold and silver. The text 'UK Training PARTNER' is overlaid on the board.

UK Training
PARTNER

- Planning and executing recovery operations
- Hazardous materials handling and safety protocols
- Debris removal and transportation
- Environmental considerations and mitigation

Day 5: Post-Incident Logistics and Continuous Improvement

- Managing long-term logistical needs
- Debriefing and after-action reporting
- Implementing lessons learned
- Developing ongoing training and preparedness programs

Practical Wins for Participants

- Ability to create and implement effective emergency response plans
- Enhanced skills in coordinating multi-agency responses to aviation accidents
- Improved capacity to support accident investigations while maintaining operational integrity
- Developed expertise in managing complex recovery operations and associated logistics
