Safety Audit & Site Inspection: Comprehensive 5-Day Course

Ref: 321517_140602 **Date:** 24 - 28 Aug 2025 **Location:** Dubai (UAE) **Fees:** 3900 **Euro**

Course Description

This intensive 5-day course provides comprehensive training on conducting effective safety audits and site inspections. Participants will learn essential techniques, legal requirements, and industry best practices to identify and mitigate workplace hazards. The course combines theoretical knowledge with practical exercises to ensure a well-rounded understanding of safety management systems.

Learning Objectives

- Understand the legal framework and importance of safety audits and inspections
- Master techniques for conducting thorough workplace safety assessments
- Develop skills in hazard identification, risk assessment, and control measures
- Learn to create and implement effective safety management systems
- Gain practical experience in conducting on-site safety inspections

Course Modules

Day 1: Introduction to Safety Audits and Inspections

- Legal aspects and regulatory requirements
- Types of safety audits and their purposes
- Elements of an effective safety management system
- Audit planning and preparation

Day 2: Audit Techniques and Methodologies

- Data collection methods and tools
- Interview techniques for safety audits
- Documentation review and analysis
- Observation skills for hazard identification

Day 3: Risk Assessment and Control Measures

- Hazard identification techniques
- Risk assessment methodologies
- Hierarchy of control measures
- Developing corrective action plans

Day 4: Site Inspection Practices

- Types of site inspections
- Pre-inspection planning and checklists
- Conducting walk-through inspections
- Specialized inspection techniques e.g., confined spaces, work at heights

Day 5: Reporting and Follow-up

- Writing effective audit and inspection reports
- Presenting findings to management
- Implementing and tracking corrective actions
- Continuous improvement in safety management

Practical Wins for Participants

- Ability to conduct comprehensive safety audits and site inspections
- Skills to develop and implement effective safety management systems
- Improved hazard identification and risk assessment capabilities
- Enhanced reporting and communication skills for safety findings
