The background of the entire page features a chessboard with several chess pieces. In the foreground, a large gold king piece stands prominently on a dark square. To its left, a silver pawn is on a light square. Further left, another silver pawn is on a dark square. The chessboard extends into the background, with more pieces visible but out of focus. Overlaid on this scene are several concentric, light gray circles that radiate from the center, creating a sense of depth and focus.

Introduction

Many senior and middle managers do not utilise Excel to its maximum potential. Instead they use it as they would a calculator. If you fall into this category, then this training course is for you. Having completed this 05-days training course you will have the requisite tools to utilize Excel to its fullest and be better equipped to challenge decisions.

In addition, if you work in the upstream or downstream, and your career progression is being restricted by outdated knowledge of modelling techniques then this Petroleum Project Economics & Financial Modelling training course will help you move your career forward.

Course Objectives of Petroleum Project Economics & Financial Modelling

- How to improve the quality of the quantitative analysis of my corporate presentations
- How to model and advise on hedging price changes in the oil and gas industry
- How to model investment appraisal techniques and utilize decision trees to model the option to abandon
