A close-up photograph of chess pieces on a checkered board. In the foreground, a large, ornate gold king piece stands prominently. To its left, a smaller silver pawn is visible. Further back, another silver pawn is positioned. The background features concentric circles, creating a sense of depth and focus on the king piece.

Professional Oil and Gas Project Management Training

Ref: 321530_140737 **Date:** 28 Jul - 01 Aug 2025 **Location:** Maldives (Maldives) **Fees:** 4700 Euro

Course Description

This intensive 5-day course equips professionals with advanced project management skills tailored to the oil and gas industry. Participants will learn to navigate complex regulatory environments, manage stakeholders, and implement best practices for successful project delivery. The course combines theoretical knowledge with practical case studies to provide a comprehensive understanding of oil and gas project management.

Learning Objectives

- Master oil and gas industry-specific project management methodologies and tools
- Develop strategies for effective risk management and mitigation in complex projects
- Learn to optimize resource allocation and cost control in oil and gas operations
- Enhance stakeholder management and communication skills in a global industry context
- Understand and apply best practices for environmental and safety compliance in projects

Course Modules

Day 1: Fundamentals of Oil and Gas Project Management

- Introduction to oil and gas industry project lifecycle
- Regulatory frameworks and compliance requirements
- Stakeholder identification and management strategies
- Project charter development for oil and gas initiatives

Day 2: Planning and Scheduling in Oil and Gas Projects

- Work Breakdown Structure WBS for oil and gas projects
- Critical path method and schedule optimization
- Resource leveling and allocation techniques
- Risk identification and assessment in project planning

Day 3: Cost Management and Financial Analysis

- Budget development and cost estimation techniques
- Earned Value Management EVM in oil and gas projects
- Financial modeling and project viability assessment
- Cost control and forecasting methodologies

A graphic of a chessboard with several chess pieces (king, queen, rook, knight, and pawns) in gold and silver. The text 'UK Training PARTNER' is overlaid on the board.

Day 4: Risk Management and HSE Considerations

- Risk management strategies specific to oil and gas operations
- Health, Safety, and Environmental HSE planning and integration
- Crisis management and contingency planning
- Environmental impact assessment and mitigation strategies

Day 5: Project Execution, Monitoring, and Closure

- Quality assurance and control in oil and gas projects
- Performance measurement and reporting techniques
- Change management and scope control
- Project closure and lessons learned documentation

Practical Wins for Participants

- Ability to develop comprehensive project plans tailored to oil and gas industry challenges
- Enhanced skills in risk assessment and mitigation for complex energy projects
- Improved stakeholder management techniques for global oil and gas operations
- Practical tools for cost control and financial analysis in high-stakes projects
