Introduction

OpenText is a Canadian company that offers a working platform for document management or Enterprise Content Management ECM with the option of SAP integration. If we concentrate on document processing, the OpenText Content Suite is an excellent method. The OpenText Suite for SAP offers solutions that help map and execute transition initiatives around the enterprise and beyond in the SAP context. OpenText provides a digital content platform for managing and distributing unstructured content to SAP applications seamlessly, contextually, and on any device.
