

# Asset Integrity Management for the Petroleum Industry

Oil, Gas & Energy Industry Specialization  
London (UK)  
20 - 24 Oct 2025

UK Training

# PARTNER

A close-up photograph of chess pieces on a checkered board. In the foreground, a large, ornate gold king piece stands prominently. To its left, a smaller silver pawn is visible. Further back, another silver pawn is positioned. The background features a series of concentric, light gray circles that create a sense of depth and focus on the pieces.

### Course Description

This intensive 5-day course provides a comprehensive understanding of Asset Integrity Management AIM in the petroleum industry. Participants will learn essential concepts, risk assessment techniques, and maintenance strategies to ensure optimal asset performance and safety. The course covers both theoretical foundations and practical applications, equipping professionals with the tools to implement effective AIM systems.

### Learning Objectives

- Understand the principles and components of Asset Integrity Management
- Apply risk assessment and management techniques in the petroleum industry
- Develop effective maintenance strategies using RCM and RBI methodologies
- Implement lifecycle management approaches for critical assets
- Analyze human factors and their impact on asset integrity
- Create and manage AIM systems aligned with industry standards

### Course Modules

#### Day 1: Introduction to Asset Integrity Management

- AIM concepts and principles
- AIM system components and implementation
- Industry standards and best practices
- Asset lifecycle management

#### Day 2: Risk Assessment and Management

- Risk identification and analysis techniques
- Quantitative and qualitative risk assessment
- Risk matrices and registers
- Risk-based decision making

#### Day 3: Maintenance Strategies and Methodologies

- Reliability Centered Maintenance RCM
- Risk-Based Inspection RBI
- Failure Mode and Effects Analysis FMEA
- Computerized Maintenance Management Systems CMMS
