## Intro to Monetary & Financial Statistics for Central Banks

**Ref:** 321670\_143443 **Date:** 25 Aug - 05 Sep 2025 **Location:** Geneva (Switzerland) **Fees:** 7900 Euro

### Course Description

This comprehensive 10-day course provides central bank professionals with a solid foundation in monetary and financial statistics. Participants will learn essential concepts, methodologies, and practical skills for compiling, analyzing, and interpreting monetary and financial data. The course covers key topics such as financial instruments, sectoral balance sheets, and analytical frameworks used in central banking.

### Learning Objectives

- Understand the conceptual framework and principles of monetary and financial statistics
- Master techniques for compiling and analyzing sectoral balance sheets
- Develop skills in interpreting monetary aggregates and credit measures
- Learn to apply statistical methods for policy analysis and decision-making
- Gain proficiency in using international standards and best practices in data compilation

### Course Modules

#### Day 1: Introduction to Monetary and Financial Statistics

- Overview of central bank functions and monetary policy
- Importance of monetary and financial statistics
- Key concepts and definitions
- International statistical standards and frameworks

#### Day 2: Financial Instruments and Sectors

- Classification of financial instruments
- Institutional sector delineation
- Residency principle
- Financial intermediation and financial markets

#### Day 3: Central Bank Balance Sheet and Monetary Base

- Structure of the central bank balance sheet
- Components of the monetary base
- Reserve requirements and monetary operations
- Analytical presentation of central bank accounts
