## Quality and Control Management

**Ref:** 321695\_144092 **Date:** 03 - 07 Feb 2025 **Location:** London (UK) **Fees:** 4400 **Euro**

### Introduction:

This course is designed to develop the participant's skills in quality assurance and control and give them the best practices they require to implement different types of quality programs, including Total Quality Management TQM, within their organization. Quality assurance and control are integral components of a quality management system that ensure that the product or service being delivered meets the customer's expectations.

Quality assurance and control systems guide principles, methods, and best practices for organizations to strive for excellence in everything they do. Quality management is a leadership practice that has a positive impact on the entire work environment. Effective leaders build a solid foundation that allows them to develop truly committed employees with high morale and improved performance, providing employees with opportunities for participation, problem-solving, and teamwork, it creates a level of motivation within each employee.

### Targeted Groups:

- Senior Management
