

IT Project Management: Mastering Digital Initiatives

Project Management
Sharm El-Sheikh (Egypt)
26 - 30 Oct 2025

UK Traininig

PARTNER

A close-up photograph of chess pieces on a checkered board. In the foreground, a large, ornate gold king piece stands prominently. To its left, a smaller silver pawn is visible. Further back, another silver pawn is positioned. The background features concentric circles, creating a sense of depth and focus on the king piece.

IT Project Management: Mastering Digital Initiatives

Ref: 321713_144665 **Date:** 26 - 30 Oct 2025 **Location:** Sharm El-Sheikh (Egypt) **Fees:** 3700 Euro

Course Description

This intensive 5-day IT Project Management course equips participants with the knowledge and skills needed to successfully lead and deliver complex digital initiatives. Covering the entire project lifecycle, from initiation to closure, the course blends theory with practical applications, ensuring participants can immediately apply their learning to real-world IT projects.

Learning Objectives

- Master core project management principles and their application to IT initiatives
- Develop proficiency in project planning, scheduling, and risk management for digital projects
- Learn effective stakeholder management and communication strategies in IT environments
- Gain hands-on experience with project management tools and methodologies specific to IT
- Understand how to manage quality, changes, and resources in technology-driven projects

Course Modules

Day 1: Foundations of IT Project Management

- Introduction to IT project management concepts
- The project life cycle in digital initiatives
- IT project selection and portfolio management
- Stakeholder identification and analysis in tech projects

Day 2: Planning and Scoping IT Projects

- Developing the project charter for IT initiatives
- Creating a comprehensive Work Breakdown Structure WBS
- Estimating time and costs in technology projects
- Resource planning and team formation in IT environments

Day 3: Risk and Quality Management in IT Projects

- Identifying and assessing risks in digital projects
- Developing risk response strategies
- Quality planning and control in IT deliverables
- Change management in technology-driven projects

Day 4: Execution and Monitoring of IT Projects

A graphic of a chessboard with several chess pieces (king, queen, rook, knight, and pawns) in gold and silver. The text 'UK Training PARTNER' is overlaid on the board.

UK Training
PARTNER

- Leading and managing IT project teams
- Effective communication in digital projects
- Tracking and reporting project progress
- Earned Value Management in IT initiatives

Day 5: Closing IT Projects and Agile Methodologies

- Project closure and lessons learned in IT
- Introduction to Agile project management
- Scrum and Kanban for IT projects
- Hybrid approaches in technology project management

Practical Wins for Participants

- Ability to confidently lead IT projects from initiation to successful completion
- Enhanced skills in managing stakeholders and communication in tech environments
- Proficiency in using project management tools and techniques specific to IT
- Improved capability to deliver IT projects on time, within budget, and to specification
