

5 Days Workshop: Telecommunication System Engineering

Telecom Engineering
Dubai (UAE)
09 - 13 Nov 2025

UK Traininig

PARTNER

The background of the entire page features a grayscale checkered chessboard. Several chess pieces are visible: a silver pawn on the left, a silver pawn in the center, a silver king in the foreground, and a silver pawn on the far right. Overlaid on this are several concentric, light gray circles that radiate from the center, creating a ripple effect.

5 Days Workshop: Telecommunication System Engineering

Ref: 321819_147595 **Date:** 09 - 13 Nov 2025 **Location:** Dubai (UAE) **Fees:** 3900 **Euro**

Course Description

This intensive 5-day workshop provides a comprehensive overview of telecommunication system engineering. Participants will gain in-depth knowledge of network architecture, digital transmission systems, wireless communications, and emerging technologies. The course combines theoretical concepts with practical applications, preparing engineers for the challenges of modern telecommunications.

Learning Objectives

- Understand the fundamentals of telecommunication system architecture and design
- Master digital transmission techniques and protocols
- Analyze wireless communication systems and mobile networks
- Explore emerging technologies in telecommunications
- Develop skills in network planning and optimization

Course Modules

Day 1: Introduction to Telecommunication Systems

- Overview of telecommunication networks
- System engineering principles
- Network architecture and protocols
- Transmission media and signal propagation

Day 2: Digital Transmission Systems

- Digital modulation techniques
- Multiplexing and multiple access methods
- Error detection and correction
- Optical fiber communications

Day 3: Wireless Communication Systems

- Cellular network principles
- Mobile network technologies 2G to 5G
- Wireless LAN and satellite communications
- Radio frequency planning and management

The logo for UK Training Partner, featuring the text 'UK Training' in a smaller font above the word 'PARTNER' in a large, bold, black font. The background of the logo is a stylized chessboard with several chess pieces (a king, a queen, and a pawn) and concentric circles representing signal waves.

Day 4: Network Management and Security

- Network performance monitoring
- Quality of Service QoS management
- Cybersecurity in telecommunications
- Disaster recovery and business continuity

Day 5: Emerging Technologies and Future Trends

- Internet of Things IoT in telecommunications
- Cloud-based network services
- Software-defined networking SDN
- 6G and beyond: future of telecommunications

Practical Wins for Participants

- Ability to design and optimize telecommunication networks
- Skills to troubleshoot complex system issues
- Knowledge to implement cutting-edge technologies
- Expertise to lead telecommunication projects effectively
