Lyon (France)

Corporate Financial Planning, Budgeting & Control Course

Ref: 3335_155886 **Date:** 23 – 27 August 2027 **Location:** Lyon (France) **Fees:** 5200 GBP

Why This Course

In an increasingly competitive and fast-paced business environment, organizations need strong financial planning, effective budgeting frameworks, and reliable control systems to ensure sustainable growth. Finance professionals are expected to not only understand financial data but also transform it into actionable strategies that strengthen performance and support long-term business objectives.

The Corporate Financial Planning, Budgeting & Control Program is an intensive 1-week course designed to build both strategic understanding and hands-on capability. Through real-world scenarios, analytical frameworks, and practical tools, participants learn how to craft strategic financial plans, design accurate budgets, and implement strong control mechanisms that improve decision-making and organizational efficiency.

What You'll Learn and Practice

By completing this program, participants will be able to:

- Develop strategic financial plans that align with organizational goals
- Apply a range of budgeting techniques across different business environments
- Implement effective financial control systems to monitor performance
- Analyze financial data to support strategic and operational decisions
- Identify and manage financial risks within corporate structures

The Program Flow

Day 1 - Foundations of Corporate Financial Planning

- Introduction to corporate financial planning frameworks
- Principles of strategic financial management
- Financial statement analysis for planning and evaluation
- Forecasting tools and techniques for financial projections

Day 2 - Advanced Budgeting Techniques

- Types of budgets and their organizational roles
- Zero-based budgeting and activity-based budgeting
- Flexible budgeting and variance analysis for performance evaluation
- Capital budgeting and investment appraisal methods

Day 3 - Financial Control & Risk Management

- Designing and implementing internal control systems
- Identifying and assessing financial risks
- Strategies for managing and mitigating financial risks
- Regulatory and compliance considerations affecting financial controls

Day 4 - Performance Measurement & Management

- Financial and operational KPIs for business performance
- Balanced Scorecard for strategic performance alignment
- Benchmarking techniques to evaluate competitiveness
- Performance reporting, dashboards, and analytical approaches

Day 5 - Integration & Application

- Integrating planning, budgeting, and control for organizational coherence
- Corporate financial management case studies
- Best practices for sound financial decision-making
- Emerging trends and future directions in corporate finance

Practical Wins for Participants

Participants will complete the program with the ability to:

- Build comprehensive financial plans aligned with long-term strategy
- Design, manage, and optimize budgets for diverse corporate needs
- Implement strong internal control frameworks and risk management tools
- Use data-driven analysis to support high-quality financial decisions

Organizational Impact

Organizations will benefit through:

- Stronger financial planning and forecasting accuracy
- Improved budgeting discipline and cost control
- Better visibility into financial risks and performance metrics
- More effective decision-making supported by reliable financial insights

Training Methodology

This program incorporates:

- Real-world case studies from various industries
- Hands-on exercises in budgeting, forecasting, and financial control
- Practical tools and templates for immediate workplace application
- Interactive discussions and collaborative problem-solving

Beyond the Course

Participants will return equipped to:

- Lead corporate planning and budgeting processes with greater confidence
- Strengthen internal financial systems and oversight
- Support strategic initiatives with precise and informed financial analysis
- Contribute to long-term financial stability and organizational success
