Laws of Business & Commerce: Foundations for Professionals

Ref: 321414_159130 **Date:** 26 – 30 September 2027 **Location:** Dubai (UAE) **Fees:** 4200 GBP

Why This Course

Legal issues are an integral part of everyday business decisions. Contracts, regulations, liability, employment matters, and cross-border transactions all carry legal implications that can significantly affect organizational performance and risk exposure. For non-legal professionals, a solid understanding of business law is essential to making informed, confident decisions and avoiding costly mistakes.

The **Business Law Fundamentals & Practical Application Program** is an intensive one-week course designed to provide professionals with a clear, practical understanding of the legal principles that govern business and commerce. Rather than focusing on theory alone, the program emphasizes real-world application—helping participants recognize legal risks, interpret contracts, and navigate regulatory requirements effectively.

Through case studies, practical examples, and guided discussion, participants develop the legal awareness needed to protect business interests and operate with greater confidence.

What You'll Learn and Practice
