Islamic Banking and Finance: Principles and Practices

Ref: 321487_160922 **Date:** 27 June – 1 July 2027 **Location:** Amman (Jordan) **Fees:** 4200 GBP

Why This Course

Islamic banking and finance have grown into a significant segment of the global financial system, offering Sharia-compliant alternatives to conventional banking products. As the industry expands across regions and markets, professionals must understand not only its foundational principles but also the practical structures, governance requirements, and risk considerations that define it.

Islamic finance operates under distinct ethical and legal frameworks. Concepts such as profit-and-loss sharing, asset-backed financing, and the prohibition of interest require specialized knowledge and careful structuring. Institutions must also balance innovation with strict Sharia compliance and regulatory standards.

This comprehensive 5-day course provides an in-depth understanding of Islamic banking and finance principles, products, and practices. It combines theoretical foundations with practical insights to equip professionals with the expertise needed to operate effectively within the Islamic finance industry.

What You'll Learn and Practice

By participating in this program, you will:

- Understand the core principles and prohibitions governing Islamic finance
- Analyze the structure and application of key Islamic banking products
- Evaluate risk management approaches tailored to Islamic financial institutions
- Examine regulatory frameworks and Sharia compliance requirements
- Apply Islamic finance concepts to practical case studies and real-world scenarios

The Program Flow

Day 1: Foundations of Islamic Banking and Finance

- Principles of Islamic economics and financial systems
- Key prohibitions: Riba, Gharar, and Maysir
- Historical development and global growth of Islamic banking
- Comparison between Islamic and conventional banking models

- Stronger Sharia-compliant product development capabilities
- Improved risk identification and management practices
- Enhanced regulatory and governance alignment
- Greater readiness to compete in Islamic finance markets
- Better strategic positioning within the evolving financial landscape

Training Methodology

This program emphasizes practical application through:

- Real-world case studies
- Product structuring discussions
- Risk analysis exercises
- Interactive group sessions
- Industry-focused scenario reviews

Beyond the Course

Upon completion, participants will be prepared to:

- Contribute to the development of Sharia-compliant financial solutions
- Strengthen compliance and governance frameworks
- Support risk management within Islamic financial operations
- Identify emerging opportunities in Islamic banking and fintech

This program provides a structured and practical pathway for professionals seeking to deepen their expertise in Islamic banking and finance while maintaining alignment with Sharia principles and industry standards.
