Advanced Internal Audit: Mastering Risk-Based Techniques

Ref: 321732_169226 **Date:** 25 April – 6 May 2027 **Location:** Tunis (Tunisia) **Fees:** 7600 GBP

Why This Course

In today's complex business environment, internal auditors must go beyond traditional audit practices to provide strategic insights and drive organizational improvement. This intensive 2-week program equips experienced auditors with advanced skills in risk-based auditing, data analytics, fraud detection, and strategic audit planning. Through a combination of theory, hands-on exercises, and real-world case studies, participants will gain the expertise to enhance audit effectiveness, strengthen governance, and influence organizational outcomes.

What You'll Learn and Practice

By attending this course, you will be able to:

- Develop advanced risk assessment and audit planning strategies aligned with organizational objectives.
- Apply data analytics and continuous auditing techniques to enhance audit efficiency.
- Detect and prevent fraud through forensic auditing methodologies.
- Improve audit reporting and communication to influence management decisions.
- Implement quality assurance processes to ensure audit effectiveness.
- Stay ahead of emerging trends in internal auditing, including AI, blockchain, and agile methodologies.
