Developing Creativity and Supervision Skills at Work

Ref: 321801_171475 **Date:** 20 – 24 September 2027 **Location:** Tokyo (Japan) **Fees:** 5900 GBP

Why This Course

In today's fast-paced and competitive work environment, creativity and effective supervision are critical for driving innovation and team performance. This intensive 1-week program equips professionals with the skills to foster creative thinking, lead high-performing teams, and implement innovative solutions. Participants will gain practical strategies to enhance leadership effectiveness, encourage collaboration, and solve complex problems with confidence.

What You'll Learn and Practice

By participating in this course, you will:

- Develop advanced creative thinking skills to address workplace challenges.
- Master supervision techniques for motivating and managing high-performing teams.
- Create and nurture a culture of innovation within your organization.
- Enhance communication skills for collaboration, feedback, and conflict resolution.
- Apply analytical and creative tools for strategic decision-making and problem-solving.

Program Flow

Day 1: Foundations of Creativity in the Workplace

- Understanding creativity and its role in organizational success
- Identifying personal creative strengths and areas for development
- Techniques for generating innovative ideas
- Overcoming common barriers to creativity in professional settings

Day 2: Advanced Supervision Skills

- Core principles of effective supervision and leadership
- Developing a personal leadership style aligned with team needs
- Techniques for motivating and inspiring team members
- Managing diverse teams and fostering inclusivity

Day 3: Fostering Innovation in Teams

- Creating and sustaining a culture of innovation
- Facilitating creative problem-solving sessions
- Encouraging calculated risk-taking and learning from failure
- Implementing processes and systems to support innovation

Day 4: Communication and Conflict Resolution

- Advanced communication strategies for leaders
- Active listening and providing constructive feedback
- Navigating difficult conversations with confidence
- Conflict resolution techniques tailored for supervisory roles

Day 5: Strategic Decision-Making and Problem-Solving

- Analytical and creative approaches to solving complex problems
- Tools and frameworks for strategic decision-making
- Managing organizational change and overcoming resistance
- Developing actionable plans for continuous improvement and innovation

Training Methodology

This program combines theory, practical exercises, and applied workshops to ensure participants can immediately apply skills in the workplace:

- Interactive exercises to enhance creativity and innovation
- Role-playing and simulations for supervision and conflict resolution
- Group workshops on problem-solving, strategic planning, and decision-making
- Case studies demonstrating effective innovation and team leadership

Beyond the Course

Participants will leave the program able to:

- Apply a personalized creativity toolkit to generate innovative solutions.
- Lead and motivate teams effectively, enhancing overall performance.
- Foster a culture of innovation that drives organizational growth.
- Communicate clearly, resolve conflicts, and strengthen team collaboration.
- Make strategic, well-informed decisions using creative and analytical approaches.
