Integrated Business Excellence: Mastering Core Competencies

Ref: 321996_180144 **Date:** 8 – 12 March 2027 **Location:** Paris (France) **Fees:** 5200 GBP

Why This Course

Organizations seeking long-term success must integrate strategy, operations, innovation, and leadership into a unified approach to performance improvement. Integrated Business Excellence provides a comprehensive framework for aligning business functions, enhancing efficiency, and building a culture that supports continuous improvement and sustainable growth.

This intensive 1-week program equips participants with practical tools and frameworks to drive business excellence across their organizations. By combining strategic planning, operational improvement methodologies, innovation management, and leadership development, the course helps professionals create high-performing organizations capable of adapting to evolving market demands.

What You'll Learn and Practice

By participating in this program, you will:

- Understand the core principles and frameworks of Integrated Business Excellence.
- Develop strategies that align organizational goals with operational performance.
- Apply tools and techniques to improve operational efficiency and quality.
- Foster innovation and effectively manage organizational change.
- Strengthen leadership capabilities to guide high-performing teams.
- Build systems that support continuous improvement and long-term competitiveness.
