FSA Level I Exam Prep: Mastering Sustainability Accounting

Ref: 322844_216406 **Date:** 15 – 19 November 2027 **Location:** Amsterdam (Netherlands) **Fees:** 5200 GBP

Course Description

This comprehensive 1-week course prepares participants for the Fundamentals of Sustainability Accounting FSA Credential Level I exam. Participants will gain in-depth knowledge of sustainability accounting principles, ESG integration, and global reporting standards. The course combines theoretical foundations with practical applications to ensure exam readiness.

Learning Objectives

- Understand core sustainability accounting concepts and their financial implications
- Master ESG integration techniques for corporate strategy and investment analysis
- Analyze and interpret sustainability reports using industry-standard frameworks
- Develop skills to identify and assess material sustainability information
- Gain proficiency in sustainability disclosure standards and regulatory requirements

Course Modules

Day 1: Introduction to Sustainability Accounting

- Fundamentals of sustainability and ESG
- Evolution of sustainability reporting
- Key frameworks and standards GRI, SASB, TCFD
- Materiality assessment in sustainability context

Day 2: ESG Integration and Financial Impact

- Linking sustainability to financial performance
- ESG risk assessment and management
- Sustainable finance and responsible investing
- Case studies on ESG integration

Day 3: Sustainability Reporting and Metrics
