EPCIC Contract Management in Offshore and Marine Projects

Ref: 322879_217319 **Date:** 8 – 12 August 2027 **Location:** Tunis (Tunisia) **Fees:** 4200 GBP

Course Description

This intensive 1-week course provides a comprehensive understanding of EPCIC Engineering, Procurement, Construction, Installation & Commissioning contract management in offshore and marine environments. Participants will gain crucial insights into contract structuring, risk allocation, negotiation strategies, and project execution. The course covers legal frameworks, financial considerations, and industry best practices to ensure successful project delivery.

Learning Objectives

- Understand the intricacies of EPCIC contracts in offshore and marine contexts
- Develop strategies for effective risk management and allocation
- Master negotiation techniques for complex EPCIC agreements
- Learn best practices for contract administration and dispute resolution
- Gain insights into financial and legal aspects of EPCIC projects

Course Modules

Day 1: EPCIC Fundamentals and Legal Framework

- Introduction to EPCIC contracts in offshore and marine projects
- Legal and regulatory considerations
- Contract structures and risk allocation
- Key stakeholders and their roles

Day 2: Contract Formation and Negotiation
