Construction Contracts Intensive Masterclass: Expert Level

Ref: 322917_219106 **Date:** 9 – 13 November 2026 **Location:** Barcelona (Spain) **Fees:** 5200 GBP

Course Description

This intensive 5-day masterclass provides a comprehensive deep dive into construction contracts. Participants will gain expert-level knowledge in contract drafting, negotiation, risk management, and dispute resolution. The course covers both theoretical foundations and practical applications, using real-world case studies and interactive exercises.

Learning Objectives

- Master the intricacies of construction contract drafting and interpretation
- Develop advanced negotiation skills for complex construction agreements
- Learn effective risk allocation and management strategies in construction projects
- Understand key legal principles and their application in construction contracts
- Gain proficiency in dispute avoidance and resolution techniques

Course Modules

Day 1: Foundations of Construction Contracts

- Overview of construction contract types and structures
- Key clauses and their implications
- Legal principles governing construction contracts
- International perspectives on construction contracting

Day 2: Contract Drafting and Negotiation

- Techniques for clear and effective contract drafting
- Negotiation strategies for favorable terms
- Handling common areas of contention
- Practical drafting and negotiation exercises

Day 3: Risk Management and Allocation

- Identifying and assessing project risks
- Strategies for effective risk allocation
- Insurance and bonding considerations
- Force majeure and unforeseen circumstances

A graphic of a chessboard with several chess pieces. A large gold king piece is in the foreground, with a silver pawn and a silver knight behind it. The board is checkered, and there are concentric circles in the background.

Day 4: Contract Administration and Change Management

- Best practices in contract administration
- Managing variations and change orders
- Time and cost control techniques
- Documentation and record-keeping strategies

Day 5: Dispute Avoidance and Resolution

- Proactive dispute avoidance techniques
- Alternative dispute resolution methods
- Arbitration and litigation considerations
- Case studies in construction dispute resolution

Practical Wins for Participants

- Ability to draft and negotiate complex construction contracts with confidence
- Enhanced skills in identifying and mitigating project risks
- Improved contract administration and change management capabilities
- Strategies to effectively avoid and resolve construction disputes
