

FIDIC Construction Claims: Mastering Contract Management

1 – 5 February 2027
London (UK)

UK Training

PARTNER

A photograph of chess pieces on a checkered board. In the foreground, a large, ornate gold king piece stands prominently. To its left, a smaller silver pawn is visible. Further back, another silver pawn is positioned. The background features a series of concentric, light gray circles that create a sense of depth and focus on the king piece.

FIDIC Construction Claims: Mastering Contract Management

Ref: 322971_220450 **Date:** 1 – 5 February 2027 **Location:** London (UK) **Fees:** 5400 GBP

Course Description

This intensive 5-day course provides a comprehensive understanding of construction claims under FIDIC contracts. Participants will learn to identify, prepare, and manage claims effectively, while gaining insights into dispute resolution procedures. The course combines theoretical knowledge with practical case studies to ensure real-world application.

Learning Objectives

- Understand FIDIC contract principles and key clauses related to claims
- Master the process of identifying, preparing, and submitting construction claims
- Develop skills in claim evaluation, negotiation, and dispute resolution
- Gain practical experience through case studies and interactive exercises
- Learn best practices for contract administration and risk management

Course Modules

Day 1: Introduction to FIDIC Contracts and Claims

- Overview of FIDIC contract suite
- Key clauses and risk allocation
- Types of construction claims
- Claim identification and notification procedures

Day 2: Claim Preparation and Submission

- Gathering and organizing evidence
- Drafting effective claim narratives
- Quantifying damages and delays
- Claim submission requirements and deadlines

Day 3: Time-Related Claims and Delay Analysis

- Extension of time claims
- Delay analysis techniques
- Concurrent delays and time impact analysis
- Acceleration and disruption claims
