Safety Audit and Site Inspection: Mastering Risk Assessment

Ref: 322976_220610 **Date:** 17 – 21 January 2027 **Location:** Istanbul (Turkey) **Fees:** 4200 GBP

Course Description

This comprehensive 5-day course equips participants with the knowledge and skills to conduct effective safety audits and site inspections. Attendees will learn to identify hazards, assess risks, and implement control measures to ensure workplace safety and compliance with regulations.

Learning Objectives

- Understand the principles and methodologies of safety audits and site inspections
- Develop skills in hazard identification and risk assessment techniques
- Learn to evaluate the effectiveness of existing safety management systems
- Gain proficiency in developing and implementing corrective action plans
- Understand legal and regulatory requirements related to workplace safety

Course Modules

Day 1: Fundamentals of Safety Audits and Inspections

- Introduction to safety audits and site inspections
- Legal and regulatory framework
- Types of audits and inspections
- Audit planning and preparation

Day 2: Hazard Identification and Risk Assessment

- Hazard identification techniques
- Risk assessment methodologies
- Hierarchy of controls
- Documentation and reporting

Day 3: Safety Management Systems

- Components of an effective safety management system
- Evaluating safety policies and procedures
- Safety culture assessment
- Performance indicators and metrics

A graphic of a chessboard with several chess pieces. In the foreground, there is a gold king piece, a silver pawn, and a silver king piece. In the background, there are concentric circles and the text 'UK Training PARTNER' in a bold, black, sans-serif font.
