Fashion Retail Supply Chain Best Practices Training Course

Ref: 323066_223813 **Date:** 29 November – 3 December 2026 **Location:** Dubai (UAE) **Fees:** 4200 GBP

Course Description

This intensive 1-week course equips fashion retail professionals with cutting-edge supply chain best practices. Participants will gain comprehensive knowledge of sourcing strategies, production optimization, logistics management, and sustainability initiatives. Through expert-led sessions and practical exercises, attendees will develop skills to enhance efficiency, reduce costs, and drive innovation in their fashion retail supply chains.

Learning Objectives

- Implement sustainable sourcing strategies and ethical supplier partnerships
- Optimize production processes for improved quality and reduced lead times
- Develop effective inventory management and demand forecasting techniques
- Integrate digital technologies to enhance supply chain visibility and agility
- Design and execute sustainable practices across the entire supply chain
- Create resilient supply chain strategies to mitigate risks and disruptions

Course Modules

Day 1: Sustainable Sourcing and Supplier Management

- Sustainable material selection and sourcing strategies
- Ethical supplier evaluation and partnership development
- Implementing transparency and traceability in sourcing
- Negotiation techniques for sustainable partnerships

Day 2: Production Optimization and Quality Control

- Lean manufacturing principles for fashion production
- Quality control processes and standards
- Technology integration in production management
- Reducing waste and improving efficiency in manufacturing

Day 3: Inventory Management and Demand Forecasting

- Advanced inventory management techniques
- Demand forecasting models for fashion retail
- Balancing stock levels and product lifecycle management
- Implementing agile inventory strategies

Day 4: Logistics and Distribution Excellence

- Optimizing transportation and warehousing operations
- Last-mile delivery innovations in fashion retail
- Reverse logistics and returns management
- Cross-border logistics and international trade compliance

Day 5: Sustainability and Digital Transformation

- Circular economy principles in fashion supply chains
- Digital technologies for supply chain visibility and analytics
- Developing a sustainability roadmap for your supply chain
- Change management for digital supply chain transformation

Practical Wins for Participants

- Develop a sustainable sourcing strategy tailored to your brand
- Create an action plan to optimize production and reduce lead times
- Design a data-driven inventory management system
- Formulate a digital transformation roadmap for your supply chain
