CMA Part 1: Financial Reporting, Planning & Performance

22 November – 10 December 2026
Riyadh (KSA)

CMA Part 1: Financial Reporting, Planning & Performance

Ref: 3331_231877 **Date:** 22 November – 10 December 2026 **Location:** Riyadh (KSA) **Fees:** 10900 GBP

Why This Course

In today's fast-moving business environment, finance professionals need more than basic accounting knowledge—they must be equipped to interpret financial data, manage performance, optimize costs, and use technology to support strategic decision-making.

The CMA Part 1 Program is a comprehensive 3-week preparation course designed to help participants master the core competencies tested in the CMA exam, while also building practical skills that are essential in modern financial roles.

Through a mix of structured learning, real-world applications, analytics practices, and exam-focused training, this program ensures candidates are fully prepared to excel in both the CMA exam and their professional careers.

What You'll Learn and Practice

By completing this program, participants will be able to:

- Apply the principles of external financial reporting in compliance with GAAP and IFRS.
- Build effective plans, budgets, and forecasts using industry-standard methodologies.
- Use performance measurement tools and KPIs to support informed decision-making.
- Implement strategic cost management techniques across business processes.
- Evaluate and strengthen internal control systems in alignment with recognized frameworks.
- Leverage technology, analytics, and emerging tools to enhance financial reporting and performance.

The Program Flow

Day 1: Introduction to Financial Reporting

- Financial statements and reporting fundamentals
- IFRS and GAAP frameworks
- Measurement and recognition principles
- Basic financial statement analysis
